GREENWOOD

Annual Report, 1913

— 1914 —

A LARGE STOCK
of
FOOTWEAR

WE ALWAYS have at all seasons a very complete line of footwear. It is our aim and purpose to have what people want and to have our prices right. You can surely find what you want and save money if you buy of us.

 We also have a full line of Trunks, Bags and Suit Cases.

TO THE SUPERINTENDING SCHOOL COMMITTEE,
Gentlemen:

I beg your consideration for my first report as Superintendent of your school. From the fact that you were willing to join a superintendence union and the various instructions issued by yourselves from time to time, I have inferred that you were anxious for the advancement of your schools, but were content to trust the purely technical questions involved to the judgment of your Superintendent. The freedom allowed me has been a source both of gratification and anxiety. Gratification because of the trust reposed, and anxiety to measure up to your standard for results.

Agreeable to your vote of August 16th, the schools opened for the fall term on September 15th, with few changes in the teaching force. Only such changes were made as seemed necessary, or were compelled by the refusal of the old teachers to return for what we could afford to pay.

All real advancement in school work is the result of slow and consistent growth, and it seemed wise to me to retain as many of the old teachers as possible because their knowledge of local conditions would make for the efficiency of both teacher and superintendent.

The question of the retention of the most desirable teachers usually resolves itself into the question of salaries. In this connection good business sense would dictate a certain measure of liberality. In other walks of life we are willing to pay for the

best, and to have no other. Not always is the wisdom of this policy seen in hiring teachers. So long as we pay the minimum salaries we must take the poor teachers, or the inexperienced ones. And when we have trained a teacher so that she can command a higher wage in an adjoining town, it is the height of folly to allow her to go for a matter of a dollar or two per week. I realize that the town may be raising as much for schools as it feels able already, and for that reason we are seriously handicapped when compared to more wealthy towns. But this matter is so important that if we could secure competent teachers in no other way, shorter school year with the best teachers would be preferable. I trust, however, that yourselves and the citizens will approve the method of administration for the present year and will note the great saving thereby. We have already lengthened the school year by a week, over what it was before and have on hand a balance of over \$75.

The question of consolidation has not been seriously contemplated for the immediate future, because it seems best to first demonstrate to the tax payers its desirability. Quite frequently much needed reforms are held back for years by too much zeal on the part of the reformers. On the other hand, once the people are convinced of the desirability of a change, the necessary consent will be forthcoming. We have, at the present, at Locke's Mills as good schools of their kind as will be found any where. I think we may be justly proud of them. It is seldom that schools of that size are supplied with teachers who show so much enthusiasm for their work and ability for advancement.

At Rowe Hill we were forced to accept a beginner. The choice was a happy one beyond our expectation. The school has made steady advancement. It has never been our fortune to see a young teacher so well equipped for, and enthusiastic in her work. It is to be hoped that her year's experience may accrue to the benefit of the town by her retention for another year.

At the last moment the position at Patch Mountain became vacant. Miss Pratt of South Windham was secured for the position.

She, to, was a beginner in the work, and, although she had not had the advantage of Training Classwork in her High School course, was a distinct success.

Miss Knight would not return to the Richardson school although offered more pay. A longer year elsewhere explains why

we lost the services of a good teacher in this case. Aside from the isolation of the small schools, very often the deadening monotony drives teachers from them. This is another reason why it is so difficult to keep the better grade of teachers in the small schools after they have secured a degree of experience.

Another factor that must soon be reckoned with is the new law for certification that goes into effect the coming September.

As soon as it becomes operative fewer girls will offer themselves as candidates for teachers' certificates. This will lessen the supply, and naturally will raise salaries. We will get better teachers as a result, but we must pay for them. This force is already apparent. We shall need the coming year at least as large an appropriation for common schools as was raised last year.

This by the way, is less than in former years, but will be sufficient for maintaining a 30-week year, if expended as during the past year.

BOOKS.

On account of the heavy orders that were necessary last spring there was little money to expend for books. Only the most necessary purchases have been made, as it will be our policy never to exceed the appropriation^s voted by the town for its various needs. At the present time there are sufficient texts so that with the usual appropriation we should have next year a very fair assortment. There has been an enormous waste in this respect, because the teachers have often neglected the most ordinary precautions to properly protect the town's books. This is a fault that seems to be universal, especially among the weaker teachers.

Unremitting effort will be put forth to remedy the evil.

It seemed wise to change the method for Primary Reading; after observing its success in other places, the Progressive Road to Reading was adopted and has furnished the basis for a remarkable advance on the part of both pupils and teachers.

It may be that more material has been furnished this year than in former years, but the supply has not included anything but what seemed essential. More uniformity and less expense is incurred by having the town furnish all the school supplies needed besides lightening the burdens by so much to those parents who already have all they can do to feed and clothe their children.

We confidently await your approval for our step if we have radically departed from any former policy in this matter.

At present we are over stocked with Arithmetics, but very short of Geographies, Histories, Readers and Physiologies.

With your approval, perhaps some of our present surplus, could be exchanged for part of the above list of needs, but it seems necessary for the citizens to raise the usual amount, \$150, for this item voted in former years, for the coming year.

SCHOOL-HOUSES.

If we make no mistake all the houses have been painted the past year except, No. 4, No. 8, No. 9 and No. 11. The external appearance of all of them is satisfactory, except at No. 3. Inside, conditions are not so good. At No. 10 the light is bad. An attempt to remedy the evil has been made by curtains, but the cross lights are very trying now. It would be economical to provide more shed room for storage of fuel so that could be purchased when hauling was lowest. It is doubtful if it would be wise to spend any more money on the building at No. 3. The interior is really disgraceful, but the proximity of this school to Locke's Mills makes it inadvisable to make any very expensive repairs unless there should be a sudden increase in its enrollment.

The conditions at No. 7 are as bad as at No. 3 except for a good coat of paint applied the past year. I consider it poor economy to maintain this school at the same time that No. 3 is run.

One or the other should be closed. Possibly conditions in winter may make it advisable to run one or the other. If this one is to be maintained, extensive repairs including decent seats should be provided.

The notable needs at Greenwood Center is a stove. The one in present use is unsafe. The same trouble exists at Rowe Hill. An order for much needed blackboards has been placed for this and the school at No. 4. At Greenwood City the school-house is in very bad condition. Here we have over 20 children enrolled in a school supplied only with the rudest benches, recognized by all as detrimental to the health, present and future of the little ones forced to use them. It is amazing that this school should have been neglected so long in favor of others where the registration is a third or less than that here. Certainly the people of this

district are as entitled to their just expenditure of school fund as those in other parts of the town. Rather than build No. 11, half the money should have been expended on this building. The remainder would have carried those from No. 11 in comfort for years. Now we are confronted by a problem of overcrowding here and a registration at No. 11 dwindling to the vanishing point.

A school of less than the legal limit is unprofitable both to town and pupil, and some States are putting the limit up to 10. There ought to be \$50 to \$100 expended on improving and enlarging No. 8 the coming year.

The conditions at No. 1 are no better. It is a crime in these days to force small children to use such benches as are in use there. The attendance having nearly vanished this school was, with your approval, closed for the winter after a fall term of 15 weeks. Future conditions there at present appear doubtful. Aside from the seats, the building is in good condition, except that children may be injured playing in the yard unless it is cleared of undergrowth.

The School at No. 5 is in excellent condition, the best in town.

That at No. 4 would be improved by painting inside. It is very dirty. So much so that washing seems to have little impression. No. 11 is practically a new building and is in good condition.

All the schools except No. 7 are very much in need of curtains.

We hope that it is not too much to expect of the town to raise an amount equal to the unexpended balance in the Common School Account this year to meet these repairs.

ATTENDANCE.

Either from the conviction that the time in the schools is wasted, or because they are indifferent to the future welfare of their children, many of the parents seek to evade the compulsory attendance law at every opportunity. This condition is by no means confined to our foreign population who might offer in excuse a variety of more or less valid reasons, but it crops out in families, who, from their positions in the town, one would expect to know better. We have now in our schools two boys aged respectively ten and thirteen who cannot do the work of the first grade. This is not because of any mental inferiority. Nor are they foreigners. The plain facts in the case are they have not been

compelled to go to school till they have arrived at an age where their lack is a serious embarrassment. The same condition pertains to an extent with our foreign pupils. This is deplorable.

From figures furnished by Mr. Smith, it appears that attendance is not improving as fast as it should. It never will till the true interests of the child are the ruling force in the matter. If our schools are worth supporting at the expense that they entail, then most certainly every child should avail himself of their benefits; or, if hindered by parental indifference or ignorance, be compelled to attend.

Statisticians who claim to know the facts, have computed the time actually spent in school as worth \$10 per day in added earning power. This is a purely commercial view, still one not to be despised. We like to believe that the schools stand for something more than an added capacity for money getting, but viewed from the above standpoint alone, their influence should be potent enough to command our united efforts in securing their benefits to every child.

SUMMARY.

Except at No. 1, No. 9 and No. 11 ten week terms have been maintained and all orders involved to the end of the present terms have been drawn.

No. 1 had a 15-week term and was then closed because of the removal from the district of most of the school. Several of the pupils are under the legal school age, but have been allowed to go in hope that the school would have an attendance sufficient to make it legal. This failed and it will be necessary to submit the question to the voters.

No. 9 was maintained for 17 weeks and then closed till Spring because many of the pupils are small and nearly all are girls.

No 11 began the year with an attendance of from 6 to 10. In the winter term this fell to 3. This was occasioned by whooping cough. After being maintained for six weeks at this figure, it seemed best to close it till Spring. The maintenance of this school will have to be submitted to the voters.

It will also be necessary for them to pass on the advisability of running those at No. 7 and No. 3.

As nearly as possible, all the important schools have been visited

five times a term. Sometimes conditions have demanded more time at one school than at another. I have endeavored to be just both to teacher and pupils in apportioning my time. Should your approval of my work incline you to my retention for another year, it is my hope to do the work by automobile, which should double its efficiency.

I have given my best with the means at my command, and shall esteem your honest criticism of the results accomplished.

I thank you for the generous support accorded, and the parents, teachers and pupils for the co-operation and forbearance that have made progress at all possible.

Respectfully submitted,

E. F. CALLAHAN, Supt.

COMMITTEES' REPORT.

Fellow Citizens:

In presenting this report for the fiscal year ending this month we feel that there are several things which should be explained and several recommendations that should be made. In the first place we have just finished the second term of school under the new system which you adopted last town meeting. We feel that the schools have improved satisfactorily during this period, and that the improvement is worth the extra money put in. Of course the changes are necessarily slow, and the first year is the hardest on account of the changes that have to be made and the prejudices that have to be overcome. However, we feel sure that after another year has passed there will be none of you that will want to go back to the old system.

In regard to appropriations for the coming year we wish to recommend the following amounts.

Common school fund,	\$1,400 00
Text-books,	150 00
Repairs and appliances,	275 00

We feel that the amount of \$1,200.00 appropriated last year is not enough to run the schools as they should be and have the

school year as long as it should be. We give here a letter received from State Superintendent of Schools Payson Smith in regard to this matter.

Augusta, Me., February 10, 1914.

Mr. C. B. Tebbets,
Greenwood, Me.

My dear Sir:

I have been carefully over the appropriation made by your town for the support of schools, as well as for the figures in relation to the school terms. I find that in respect to wages paid teachers and in length of the school year the town of Greenwood is considerably under the average for the State. It would seem imperative if the children of Greenwood are to have equal opportunities with those of other towns that some special effort be made to provide larger appropriations for the common schools. I would suggest that an increased appropriation which would lengthen the school year would result practically in increasing the annual salaries of teachers. I trust that citizens of the town will carefully investigate this point and make every effort to meet this need.

I note that a liberal apportionment of the State Equalization Fund was made to Greenwood this year and I have no doubt with a generous appropriation from the town an apportionment from the Equalization Fund may be due for next year.

I am glad to note from the report of the Inspector that the school buildings of the town are for the most part in a good state of repair and apparently well cared for. Hence the increased appropriations might well be made for the purpose mentioned of enlarged school facilities.

Very truly yours, PAYSON SMITH.

In regard to the repairs and appliance account would say that the school-house at Greenwood City has got to be fixed up this summer and new seats put in. We figure that this will cost not less than \$150.00. The school-house on Howe Hill will have to be shingled and the one in the Tubbs District will have to be repaired.

Respectfully submitted,

W. E. PENLEY,

J. C. LITTLEFIELD,

C. B. TEBBETS,

Greenwood S. S. Committee.

Vital Statistics.

OFFICE OF TOWN CLERK.

TO THE SELECTMEN OF THE TOWN OF GREENWOOD:

The following returns of births, marriages and deaths, for the year 1913, in the town of Greenwood and from the clerks of other towns, have been made to this office.

M. A. LAPHAM, *Town Clerk.*

24, In South Bethel, Ira W. Swan, married, age 60 years, 4 months, 16 days. Birthplace, Greenwood. Cause of death, arterio sclerosis and chronic nephritis.

REPORT OF BOARD OF HEALTH.

To the Selectmen of the Town of Greenwood,—

Gentlemen:

The Board of Health wish to make the following report for the year 1913.

During the past year there has been reported to this Board one case of measles. There have been several minor nuisances reported and easily taken care of.

M. A. LAPHAM,

E. D. PACKARD,

SYLVESTER COLE,

Board of Health.

WARRANT FOR TOWN MEETING.

To J. F. Harrington, a constable of the town of Greenwood, in the County of Oxford,

GREETING:

In the name of the State of Maine, you are hereby directed to notify and warn the inhabitants of said Greenwood, qualified by law to vote in town affairs, to meet at Hotel Hall, at Locke's Mills in said town on Monday, the 2d day of March, 1914, at 10 o'clock in the forenoon, to act on the following articles, to wit:

Article 1st. To choose a moderator to preside at said meeting.

Art. 2d. To choose a clerk for the ensuing year.

Art. 3d. To choose Selectmen, Assessors and Overseers of the Poor, Treasurer, one member of the Superintending School Committee and all other necessary town officers.

Art. 4th. To fix the pay of the road commissioners.

Art. 5th. To see if the town will vote "yes" or "no" upon the adoption of the provisions of Chapter 130 of the Public Laws of Maine for the year 1913 relating to the appropriation of money necessary to entitle the town to State Aid for highways for the year 1914.

Art. 6th. To see if the town will raise and appropriate in addition to the amount regularly raised and appropriated for the care of ways, highways and bridges. The sum of \$533.00 being the maximum amount the town is allowed to raise under the provisions of Chapter 130 of the Public Laws of Maine for the year 1913.

Art. 7th. To raise money for the repair of roads and bridges for the ensuing year.

Art. 8th. To raise money for snow bills for 1914-15.

Art. 9th. To raise money for building sidewalk at Locke's Mills.

Art. 10th. To raise money for the support of poor for the ensuing year.

Art. 11th. To raise money for the support of schools for the ensuing year.

Art. 12th. To raise money for the purchase of school books.

Art. 13th. To raise money for repairs on school-houses and the purchase of appliances for the ensuing year.

Art. 14th. To raise money for the Free High-school Fund.

Art. 15th. To raise money to pay superintendent's salary.

Art. 16th. To raise money for paying interest for the ensuing year.

Art. 17th. To raise money to defray town charges.

Art. 18th. To raise money for the examination of brown tail moth pest.

Art. 19th. To see if the town will vote to discontinue the road leading from near the Cemetery on Patch Mt. to the Niles place, allowing the real estate owners benefited thereby to maintain a private way over the same route.

Art. 20th. To see if the town will vote to accept the list of jurors prepared by the board.

Art. 21st. To see if the town will vote to unite with Woodstock and Milton for the purpose of purchasing a set of standards of weights and measures and raise money for same.

Art. 22d. To see if the town will vote to release its claim on the homestead farm of Orpha M. Ring, and if so to fix the terms of such release and to authorize the selectmen to convey the town's interest by appropriate conveyance.

Art. 23d. To see if the town will vote to accept from A. K. Hicks the sum of \$50.00, to bear interest at $3\frac{1}{2}$ per cent., the interest to be used once in two years to keep Hicks' Cemetery clear of bushes, weeds, etc., and in good repair, and authorize the selectmen to sign the necessary papers in behalf of the town.

Art. 24th. To see if the town will vote to instruct the S. S. Committee to maintain schools in districts No. 1-3-7 and 9 or otherwise.

The Selectmen will be in session at Hotel Hall at 9 o'clock of said meeting, to advise the list of voters.

Given under our hands at Greenwood this 4th day of February 1914.

DR. TRUE'S ELIXIR

As a reliable family tonic, in all complaints of the stomach, liver or bowels, especially constipation, Dr. True's Elixir stands without an equal; it is a pure vegetable compound with a wonderfully successful record since 1851. **Adults** as well as **children** are troubled with **worms**. The symptoms are: Indigestion, with a variable appetite; foul tongue, offensive breath, hard and full belly, with occasional gripings and pains about the navel; eyes heavy and dull, itching of the nose, short, dry cough; grinding of the teeth, starting during sleep; slow fever, and often in children, convulsions and bed wetting.

A few doses of Dr. True's Elixir will expel the worms if there are any; if not it acts as a gentle laxative tonic, clearing the stomach and bowels of all waste matter, leaving these organs sweet and clean—it increases the appetite, causing pure life-giving blood to flow through the body, thus invigorating the whole system with rugged, robust health. If taken regularly it will prevent coughs, colds, fevers and worms.

Sold by druggists, 35c, 50c, \$1.00. Write for booklet, "Children and Their Diseases."

FARMERS

Under the New Federal Reserve
Act We shall be Better Able than Ever to Serve
Your Interests.

The chief advantages of the new legislation are greater mobility of banking funds, the possibility that the government will place its surplus funds at the disposal of business, and the issuing of Federal Reserve notes secured by commercial paper. These changes should go far toward eliminating the two great defects of our former system, namely,— acute money stringencies and financial panics.

This Bank will not be obliged to keep as large reserves as formerly and this will materially increase our loaning capacity to the advantages of our customers. Then too the Federal Reserve Board is empowered to give Banks the right to act as Trustee, Administrator, Executor or Registrar of stocks and bonds.

Under the new law we shall be able to make loans secured by improved and unincumbered farm lands, such loans to run for not over five years and to be for an amount not exceeding 50 per cent of the actual value of the property. These farm mortgage loans may aggregate 25 per cent of our capital and surplus or one-third of time or savings deposits. This provision was incorporated in the law with the intention of benefiting the farmer and should prove of great assistance to him.

Any of the above reasons is of itself sufficient to influence you to open an account. Here are a few specific reasons why a bank account will benefit you:

A bank account renders your money absolutely safe from loss by robbers, fire or accident.

You save the expense of purchasing Money Orders when sending away money.

A check book makes all your money available at any moment and you can always make the exact change when paying a bill by check.

Your canceled check, returned to you by the bank, is a legal receipt and you cannot be made to pay a bill the second time.

Every check you write is an advertisement of your good business habits and solid worth, which has the effect of raising you in the general esteem of your neighbors.

In view of these advantages and conveniences can you any longer ignore the need of a bank account for yourself?

Mail us your corn, cream, apple and other produce checks and we will start an account with you. Remember that there is no expense to you in carrying on an account at this Bank.

The NORWAY NATIONAL BANK of NORWAY, Me.

(Under the supervision of the United States Government.)

Clothing & Furnishings

For Men and Boys.

SELLING CLOTHING has been our only business for many years. Our trade has been constantly expanding. Satisfaction is what has accomplished this. We insist that your every transaction with this store must be satisfactory to you in every respect. If you purchase anything here that is not satisfactory, return it and we'll gladly exchange it or refund your money. If you get anything here that doesn't wear right, we'll gladly make it right if you'll let us have the chance. We make every sale satisfactory. We have at all times a good assortment of the latest ideas in clothing and furnishings for men and boys. We buy of the best makers and guarantee every article sold. We should like to have you come in when in town and let us show you what we have. We'll be here any day. We'll not ask you to buy either unless you wish.
